During the week ending 21st July, 1899, Europeans and 1,967 Chinese visited the City Hall Museum.

The Siamese troops, says the *Siam Gazette* of 18th inst., were last week again with their repeating rifles, and were very much pleased with the new arm.

Huan von Brandt, the German Minister in China, has reached Berlin, and has had the honor of being received by the Emperor and of being introduced to the Emperor on the 14th inst.

The *Nagasaki Express* of 10th inst. writes: The French man-of-war *Scout*, which was damaged at the battle of the Yalu, arrived from Shanghai on Thursday last. The *Scout* and the *Yalu* are reported to be leaving to-day, bound to Chefoo.

The absurdity of applying the title "Master" to all sorts of men, female as well as male, is well illustrated in a recent issue of the *Southwestern* paper, in which it was declared that the late Mr. Hunk Brown was hanged yesterday in the presence of a large and interested audience.

A British correspondent telegraphs that a large Russian Steam Navigation Company is about to be formed for the navigation of the Ouzo. It is intended to commence with four or six paddle steamers, and to increase the fleet to twenty within two or three years.

From information that has reached us, Mr. Little will soon have others following in his steps for the Chungking trade, as soon as that port is open to foreign commerce. The *S. S. Kien*, a vessel of 700 tons, and weight capacity, which has just been despatched to Shanghai with a cargo of coal, is intended by her owners to be run in the Upper Yangtze trade. She is commanded by Captain Cole, a skipper well known on the China coast. — *China Express*.

The *Bangkok Times* says:—We learn that a small party of regular troops have been sent up to Nakhon-Chuang to arrest certain of the late Chinese rioters, who, having fastened themselves, continue to resist the authority of the officials of that district. We understand that three hundred of the Chinese implicated in the late riots will be sent to Koh-si-chang to break stone required for the Macadamizing of the Bangkok roads.

MUCH interest has been excited in the Colonies, which, curiously enough, are nearly all auriferous territories, in the Gold Mining Exhibition to be held at the Alexandra Palace, from July 16 to August 17. Sir H. H. Gordon, the British Agent-General for all the Australasian and Cape Colonies, is patron of the scheme, which is to include representations of everything connected with the production of gold. We have not heard that any samples of ore from the newly-opened workings in this Peninsula have been despatched for exhibition. — *Singapore Free Press*.

Writes the *Broad Arrow*:—It can scarcely be with the consent of Dr. Egan, or at all events at his instance, that Mr. George is now to be sent to Hong Kong. Such an appointment may perhaps be styled a promotion, but it will not be contemplated in that light by any active officer who has distinguished himself by energy and skill in a home dockyard. Hong Kong dockyard offers very little scope for the exercise of those facilities which have become such a fruit in the building of the *Vulcan*. When an officer shows himself competent to push on work with despatch it would appear to be the best thing to keep him at it.

GOLD in the shape of the existent Spanish currency is to be introduced into Manila to the suppression of the much-hated and hard-bearing Mexican dollar. This was done in Cuba, and it is now, as a telegram says, proposed to try the same plan here. Whether this system introduced will bring relief remains to be seen. It is feared not, as subsidiary coins for any sum under \$5 will yet remain, unless, of course, paper in some form or another is substituted for it. This, though it might be supposed, but it is feared that the introduction of gold by itself will not do much good. — *Manila's correspondent of Singapore Free Press*.

UNDER the orders of the Government of India Mr. A. R. Colquhoun, Deputy Commissioner, Rumbi Mines, Burmah, is placed under suspension with effect from the date on which he is relieved of the charges of the Ruby Mines district by Lieutenant H. A. Browning. Mr. Colquhoun formerly Assistant Engineer P. W. D. at Moulemein under Mr. Holt S. Hallett, is the well-known author of *Across the Himalayas*, and his journey from Canton, overland to Upper Burma. For this journey he was awarded the Gold Medal of the Royal Geographical Society. After the annexation of Upper Burma, he was appointed to the Commission with the rank of D. C. No reason has yet been publicly assigned for his suspension.

Lord Salisbury has at length, says a Dublin correspondent, entered a defence to the action which Mr. William O'Brien, M.P., has brought against him for alleged libel and slander. The Prime Minister had the usual eight days to file the defence, but he applied for, and got, an extension of fourteen days. At the end of the time he applied for another extension of fourteen days, but the Court granted him only seven days. On the evening of the last possible day a defence is entered which, if that form of practice is known as defended in the English courts, would be immediately deemed to be a statement of the defence. The defence is not a simple traverse of the averment. There is a denial of the allegation in the claim, and the defendant says his speech was *bona fide*, and a fair comment upon plaintiff's conduct, speeches, and writings.

A CORRESPONDENT writes to the *Vancouver World* about Hongkong as follows:—"Speaking of the Peak, it may be well to say that it is a mountain, some 18,000 feet, there is nothing too many here, which was doubtless inserted by an imaginative compositor just back and over the city, and reached by a splendid wide foot-way and a tramway worked by electric engines, and upon the mountain. You can either take a car, or a few minutes, or a chair, or four coolies, and reach this high elevation, where there is the finest view to be had of Hongkong, and where you inhale the purest air in the world of China. Since the building of the tramway, many fine residences have been and are being built, and a new hotel called the Peak Hotel is now running under the management of Mr. Wm. Thomas, a colored gentleman from New York, and for many years steward upon the Occident. A. & O'Brien, a gentleman running from San Francisco to Hong Kong. At this hotel you can get anything you like, for, be it known, Thomas is regarded as the best practical cook in the Celestial Empire.

THE PROTECTION OF WOMEN AND GIRLS.

SERIOUS CHARGE AGAINST A BROTHER-IN-LAW.

Before Mr. W. deane in the Police Court to-day, a married woman named Wong I was charged with purchasing a girl named Li U for prostitution, also with detaining the girl against her will, with the intent to make her a prostitute, and with forcing her to live an unchaste life. Mr. Webster appeared for the defence.

Li U, the complainant, said:—I am unmarried and am a native of the Lau Chan district in Chinese territory, where I lived with my mother. I am 21 years of age. On 12th January last a man named Yip Sang with whom I am acquainted took me to Pakhoi, where I lived for twelve days. On the 24th of January I returned with him to Canton, and accompanied him thence to Hongkong, arriving there on the 28th. Yip Sang then took me to a house in the Central District, where he sold me to the defendant to be a prostitute. I lived there till the 20th of this month. On that date the defendant wanted me to go abroad. She had already taken me to be photographed. I was unwilling to go abroad and I asked one of my visitors to assist me, and the result was that the inspector came and took me out of the house. I had never left my native place before the 12th of January last, and the reason why I left then was because I was going to be married as a concubine in Canton. My brother told me this. My mother handed me over to Yip Sang for \$72. I did not live with Yip Sang at Pakhoi. I lived with a boatwoman on board a boat. When Yip Sang took me to the defendant's house he said to the defendant: "I have brought a woman and I want to sell her to you." Defendant bargained with him and agreed to buy me for \$20. This was as soon as we arrived. A man named Alan, who accompanied us from Pakhoi, was present and took part in the conversation. He said: "This is a true story. On the 24th of January, some time after this defendant told me she had paid my purchase money to Yip Sang. I had been a prostitute in the house, but it was against my will. The defendant compelled me. The house is a very brothel house, and there are other girls there. I have all along been unwilling to stay there, but I have never been able to explain because I could not get out. I was not a prostitute before going to the defendant's house. I lived a chaste life up to that time. The defendant has told me that she would let me go off if I did not press this charge against her."

At this stage the case was remanded, the defendant being allowed bail in two sureties of \$250 each.

Amoy, July 18.

At last, we have reasonable weather after one of the hottest spells we have had for a number of years, the thermometer reaching 93° in the shade and no wind to temper the heat. Mr. Holst, a Lieut. Colonel in the Customs Service, succumbed to the heat on the 8th and was buried the same day. Quite a number of Chinese have died of sunstroke, and up the country it is far worse, the coolies dropping dead in the fields while harvesting the rice.

We have had a very peculiar thunder storm on the night of the 15th—first a regular deluge of rain, then two vivid flashes of lightning. The first was just like a ball of fire traveling the heavens; the second was more like an aerial fireball, and a few seconds after came the heaviest claps of thunder that I have ever heard. It made the houses shake, and people believed that each house was nearly struck. The chimney of Mr. Kuapell's house came down.

and went through the roof of the kitchen, and on the Army side two Chinese houses were struck by the lightning, but fortunately without loss of life.

The Revenue cruiser has made rather a good voyage of Opium this morning, about 100,000 lbs. of Opium being taken from North. I believe the owners got the opinion back on paying the duty.

I hear that the missionaries have succeeded in selling the *Seaman's Club* to a Chinese man for \$1200. It now remains to be seen what they will do with the money. In my opinion the best thing would be to devote half of the money to be devoted to local charities and the other half to the New South China.

The German barque *Theresa* put in a short stay at Yokohama, having been 47 days out from Yokohama to Tokyo. There has been a deal of fever among the foreign communities lately, as well as among the natives, caused no doubt by the great heat otherwise the health of the Port is excellent.

THE STRAITS POLICE AND THE EURASIANS.

In discussing the questions to be placed before the Police Commission, the *Straits Advocate* (the Eurasian weekly) says:—

Taking it altogether, the European Police are a great burden on the Settlement. In a word they are far too expensive, and there must be some justification for the Government to go to such expense. They should have nothing to say if an efficient Police Force cannot be recruited from any other class of men. But there are suitable men on the spot who would make capital out of the money. They would be far less expensive, and who, being of the same race, would understand the customs and manners of the people, and being by nature temperate in habits, possess all the qualifications which are required to make good policemen. We have frequently in these columns called for the Government to what is considered to be a class distinction, namely, the total exclusion of Eurasians from the ranks of the Police Force. We again bring this matter forward in the hope that it will attract the notice of the Police Commission. It is perfectly unjust not only towards this particular class but towards the public, because they are for no reason whatever shut out from the ranks in which many of them are pre-eminently fitted to shine if ample opportunities are given them; towards the public, because, having at hand materials from which an effective body of non-native Police could be recruited, the Government go to the unreasonable expense of having them recruited in England. These are points which should engage the serious attention of the Police Commission.

The martial qualities of the Eurasian should not be underrated. All over India the police are recruited from the Eurasian race, and of gradually going away with the latter, is being agitated. Distinguished military officers are said to be in favor of this scheme, and indeed the consensus of public opinion seems to weigh in favor of it. We have seen in the *Straits* the reproduction of having them recruited in England in these columns several times, and the leading Indian papers on the subject. The agitation still continues, and we have no doubt that the Government of India will ultimately be induced to take steps to give the scheme a trial. It is only a question of time when the police, military experts have so high an opinion of the loyalty of Indian Eurasians to the British Crown as to be willing to entrust the safety of the Empire to them, there is no reason why Straits Eurasians should not be trusted to do the same. We do not think they are much different. In India as in the Straits, Eurasians are the descendants of old European soldiers, and in nature and disposition are the same. All that is wanted is a good policeman, namely, intelligent, brave, in duty, and honest, the Eurasian undoubtedly possesses. It is singular, therefore, to say the least of it, that Eurasians are so persistently excluded from the Police Force.

LORD DUFFERIN'S ADMINISTRATION OF INDIA.

(*Macmillan's Magazine*)

The chief influence of Lord Dufferin on domestic policy is to be seen in the change he has brought about in public opinion, in the soothing of the passions, and in the bringing about of a more sympathetic and in the direction of the popular movement of Young India. When he came to India he had a difficult task to perform. The public attention was heavily charged with electricity. The popular feeling was in a state of ferment, and the Government of India was in a state of confusion. Lord Dufferin's administration was marked by a series of reforms, and by a more sympathetic and in the direction of the popular movement of Young India.
